MEMORANDUM OF SETTLEMENT PROPOSAL

The negotiators representing British Columbia, Canada and the McLeod Lake Indian Band (McLeod Lake) agree to submit the following settlement proposal to their respective principals for consideration. The negotiators recommend that this settlement proposal be accepted and that a Final Agreement be drafted to reflect the nature and intent of this settlement proposal.

A. RESERVE LANDS

(1) Pursuant to the clause of Treaty No. 8 which refers to reserve land (see Schedule A hereto) and subject to the provisions contained herein, British Columbia will transfer to Canada the administration and control of, and Canada will set aside as Indian reserves for the use and benefit of McLeod Lake, not less than 19,028 hectares of unoccupied Crown land as shown on maps attached hereto as Schedule B and which includes:

(a) approximately 8,292.6 hectares of land in the vicinity of McLeod Lake and shown in Schedule B as "Hammett Creek", "Tudyah" and "McLeod Lake East";

(b) approximately 4,663.1 hectares of land in the vicinity of Kerry Lake and shown in Schedule B as "Kerry Lake West" and "Kerry Lake East";

(c) approximately 3,009.0 hectares of land in the vicinity of Weedon Lake and shown in Schedule B as "Weedon Carp";

(d) approximately 2,956.0 hectares of land in the vicinity of Carp Lake and shown in Schedule B as "Carp South";

(e) approximately 1.0 hectare on Finlay Bay, 1.0 hectare on Weston Bay, 2.0 hectares on the Hominka River, 2.0 hectares on Tacheeda Lake, 1.0 hectare on Davie Lake, 2.0 hectares on Arctic Lake, 1.9 hectares on Blue Lake, 2.0 hectares on McIntyre Lake, 12.0 hectares on McLeod

Lake, 4.0 hectares on Weedon Lake, and 8.1 hectares in the District Municipality of Mackenzie and shown in Schedule B.

(2) The transfers referred to in clause A(1) will be subject to third party interests being satisfied in a manner acceptable to each of Canada, British Columbia, McLeod Lake and the third parties.

(3) If it is found after surveying of the land selection, and after taking into account roads, rights-of-way, other interests in land, and any submerged lands to be excluded from the transfers of reserve land, that the land identified in clause A(1) is less than 19,028 hectares, then British Columbia will transfer to Canada the administration and control of, and Canada will set aside as Indian reserves for the use and benefit of McLeod Lake, some or all of an additional area, to be identified in the Final Agreement by the parties, as needed to ensure that at least 19,028 hectares are set aside as reserve lands. Final boundaries of the land selection will be negotiated to reflect this need for adjustment.

B. NON RESERVE LANDS

(1) British Columbia will issue to McLeod Lake permits to occupy for hunting trapping and berry picking purposes those lands as shown on maps attached as Schedule C being approximately 1.0 hectare at Colbourne Creek, 1.0 hectare on Reynolds Creek, 1.0 hectare on Chuyazega Lake, 1.0 hectare on Grayling Lake, 1.0 hectare on Firth Lake, 1.0 hectare on McLeod Lake, 1.0 hectare on the Parsnip River and 1.0 hectare on Isodore Creek.

(2) British Columbia will sell to McLeod Lake at fair market value those lands shown on maps attached as Schedule D being approximately 56.0 hectares on Summit Lake, 4.0 hectares known as "Bear Lake commercial residential", 40.0 hectares known as "Bear Lake industrial" and 70.9 hectares at Mackenzie junction. British Columbia will transfer to McLeod Lake these lands in fee simple.

C. **MINERALS AND MINERAL RIGHTS**

British Columbia will retain administration and control of both precious and base metals, as well as petroleum and natural gas underlying lands to be transferred and set aside as reservelands pursuant to the Final Agreement but will share equally with Canada for the benefit of McLeod Lake all of the revenues British Columbia derives from the disposition of precious and base metals, petroleum and natural gas underlying these lands; provided, however, that McLeod Lake will retain absolute control over the surface of and access to these lands and absolute control over whether such dispositions or development will proceed on these lands.

D. **FOREST PRACTICES CODE**

McLeod Lake will conduct forestry operations in accordance with sustainable forest practices as that term is defined in the British Columbia *Forest Practices Code*. McLeod Lake will create its own forest practices code adopting the standards contained in the British Columbia *Forest Practices Code* for such matters as harvesting methods, forest health, soil conservation, environmental protection, water quality, forest road engineering, forest protection and silviculture. McLeod Lake, British Columbia and Canada will create a monitoring system to determine whether that standard is met. The monitoring system will include joint inspections by Canada, the British Columbia Ministry of Forests and McLeod Lake, and will also include an annual audit. McLeod Lake will rectify any deficiencies in practices as defined in its code and revealed by the audit or by the joint inspections at its own expense and agrees that if it does not rectify same, Canada or British Columbia may rectify at the expense of McLeod Lake. McLeod Lake will maintain one million ($1,000,000.00) dollars in a rectification trust fund.

E. **SILVICULTURE AND REFORESTATION**

(1) Pursuant to and in accordance with British Columbia's Silviculture Regulations and Pre Harvest Silviculture Prescription, British Columbia and/or its licensees will reforest and carry out silvicultural treatments required to achieve free-growing status on reserve lands harvested since 1987. Alternatively, British Columbia will provide McLeod Lake with the funds necessary to carry out such silviculture and reforestation work.

(2) If silvicultural work is required to achieve free growing status for reserve lands on which trees were harvested prior to 1987, British Columbia and/or its licensees will perform such silviculture work or make funds available to enable McLeod Lake to perform this work.

F. FIBRE SUPPLY

(1) In consultation with British Columbia, McLeod Lake will establish an annual allowable harvest level to enable it to carry out sustainable forestry practices subject to the following conditions:

(a) the annual allowable harvest level set by McLeod Lake will be based on a yield analysis of the reserve lands conducted by a Registered Professional Forester in the province;

(b) the yield analysis will take into account the current composition of the reserve land forest and its expected rate of growth based on growth and yield estimating procedures currently in use in the province which best represent the growth rates of the reserve land forest;

(c) the McLeod Lake annual allowable harvest level will be based on a harvest flow option from the yield analysis which takes into account all of McLeod Lake's management practices planned for the reserve lands and which demonstrates a smooth transition to a sustainable long term harvest level; and

(d) written documentation will be maintained which describes the procedures, models and assumptions used in the McLeod Lake timber supply analysis and the rationale for the annual allowable harvest level set by McLeod Lake.

(2) McLeod Lake will harvest over each 5 year period a volume of timber that is not less than 90 percent nor more than 110 percent of the total of the annual allowable harvest levels during that 5 year period.

(3) McLeod Lake will make available at fair market value on the Prince George log market all timber harvested from its reserve land so long as this commitment does not interfere with use of this timber in any manufacturing process in which McLeod Lake may wish to become involved. Buyers on the Prince George log market need not be operating within the Prince George area.

However, McLeod Lake will not engage in any primary breakdown of this timber which duplicates primary breakdown methods currently employed in the Prince George TSA.

(4) McLeod Lake will adhere to British Columbia legislation concerning timber exports.

(5) The obligations assumed by and restrictions imposed upon McLeod Lake under this section entitled Fibre Supply will remain in force for a period of 20 years from the date of the Final Agreement.

G. CASH COMPONENT

As part of the settlement of all claims to be released under the Final Agreement, including claims pursuant to the Treaty No. 8 clauses set out in Schedule A, Canada will pay to McLeod Lake the sum of $9,300,000 dollars within 30 days of the execution of the Final Agreement.

H. MCLEOD LAKE COSTS

(1) Canada will pay McLeod Lake the sum of four hundred and fifty thousand ($450,000.00) dollars to cover all of McLeod Lake's negotiating costs including ratification by the McLeod Lake membership and implementation of the Final Agreement.

(2) McLeod Lake will repay to Canada all outstanding loans with respect to the negotiations.

I. RELEASES

(1) (a) McLeod Lake will give a full and final release to Canada and British Columbia, releasing them from all of the claims which formed the subject matter of *Chingee et al and McLeod Lake Indian Band v. Her Majesty the Queen in Right of the Province of British Columbia*

(BCSC Prince George Registry No. 10232/86) and from all of the claims which formed the subject matter of *Chingee et al and McLeod Lake Indian Band v. Her Majesty the Queen in Right of Canada* (Federal Court of Canada, Trial Division, Registry No. T1264/89);

(b) McLeod Lake will give a full and final release and indemnification to Canada and British Columbia, releasing them from and indemnifying them in respect of their respective obligations under the Treaty No. 8 clauses set out in Schedule A, and including all treaty obligations relating to precious and base metals, petroleum and natural gas;

(c) McLeod Lake will give a full and final release to Canada, releasing Canada from all obligations related to McLeod Lake's specific claim (submitted January, 1987) which Canada has accepted for negotiation;

(d) Canada will give a full and final release to British Columbia, releasing British Columbia from all obligations to provide land for McLeod Lake under Treaty No. 8.

(e) British Columbia will give a full and final release to McLeod Lake, releasing McLeod Lake from any claim for penalty or stumpage resulting from any alleged act of trespass by McLeod Lake on British Columbia lands or forests, to the date of the signing of this Memorandum.

(f) McLeod Lake will give a full and final release to British Columbia releasing British Columbia from any claim for stumpage received by British Columbia from harvesting of timber on lands subject to the injunction granted in *Chingee et al and McLeod Lake Indian Band v. Her Majesty the Queen in Right of the Province of British Columbia* or on lands within McLeod Lake's land selections, to the date of the signing of this Memorandum.

(g) McLeod Lake will prepare and file a Consent Dismissal Order terminating, without costs to any party, *Chingee et al and McLeod Lake Indian Band v. Her Majesty the Queen in Right of the Province of British Columbia* and

will prepare and file a consent dismissal order terminating, without costs to any party, *Chingee et al and McLeod Lake Indian Band v. Her Majesty the Queen in Right of Canada*. The releases referred to above will form part of the court applications for the consent dismissal orders.

J. EXCEPTIONS

(1) None of the benefits acquired by McLeod Lake pursuant to the Final Agreement will affect entitlement to, availability of, or level of funding provided to McLeod Lake under existing and future federal and provincial programs available to Indian bands.

(2) Nothing in this Memorandum of Settlement Proposal or the Final Agreement is intended to limit, restrict, or otherwise affect or infringe upon:

(a) any of the Treaty No. 8 rights of McLeod Lake or its members, or,

(b) any other specific claim against Canada,

except as proposed in the releases contained in this Memorandum of Settlement Proposal.

(3) In the event that Canada receives any claims for land in severalty under Treaty No. 8 prior to the close of polls on the date on which the band membership votes on ratification of the Final Agreement and accepts any of those claims, the minimum hectares set out in clause A.(1) and the land selection boundaries will be adjusted proportionally.

K. DISPUTE RESOLUTION

There will be a dispute resolution provision in the Final Agreement which will cover matters in Section D - Forest Practices Code, Section E - Silviculture and Reforestation and any other matters upon which the parties may agree.

L. BRITISH COLUMBIA-CANADA COST SHARING NEGOTIATIONS

(1) Canada and British Columbia agree that they will share the costs of this Treaty No. 8 adhesion settlement in a manner consistent with the Memorandum of Understanding (MOU) between Canada and British Columbia respecting cost-sharing dated June 21, 1993 (the "Cost-Sharing MOU").

(2) British Columbia understands that consistency with the Cost-Sharing MOU requires that all of the provisions of that agreement apply, including, in particular, the cumulator provisions by which the Province is entitled to receive full credit for foregone lands and revenue.

(3) Canada understands that consistency with the cost-sharing MOU requires compatibility and correlation but does not require that all of the provisions of the MOU apply. In particular, Canada does not agree that the cumulator provisions of the MOU should apply, given that McLeod Lake is a unique case.

(4) McLeod Lake, Canada and British Columbia agree that the settlement of McLeod Lake's Treaty adhesion claim is subject to Canada and British Columbia reaching agreement upon cost-sharing.

M. TREATY ADHESION

McLeod Lake will join in the cession made by Treaty No. 8 and will adhere to the terms of Treaty No. 8.

N. NO PRECEDENT

This Memorandum of Settlement Proposal deals with the unique circumstances surrounding the failure of McLeod Lake to adhere previously to Treaty No. 8, and its entitlement to certain lands and benefits pursuant to that treaty. Canada, British Columbia and McLeod Lake recognize and agree that the Final Agreement will be without precedent or prejudice to the positions of Canada, British Columbia or any First Nation other than McLeod Lake in any other case.

O. FINAL AGREEMENT

(1) It is understood that any final settlement is subject to:

(a) approval of the terms of a Final Agreement by obtaining appropriate governmental authority from both Canada and British Columbia and, in the case of McLeod Lake, by way of a vote held in accordance with ratification guidelines to be agreed upon between McLeod Lake and Canada.

(b) execution of such Final Agreement as is necessary to formalize the intent and terms of the settlement.

Signed this 20th day Oct, 1995.

Negotiator for McLeod Lake

Andrew P. Schuel

Negotiator for Canada

Negotiator for British Columbia

SCHEDULE A

Excerpted portions of Treaty No. 8:

"And Her Majesty the Queen hereby agrees and undertakes to lay aside reserves for such bands as desire reserves, the same not to exceed in all one square mile for each family of five for such number of families as may elect to reside on reserves, or in that proportion for larger or smaller families; and for such families or individual Indians as may prefer to live apart from band reserves, Her Majesty undertakes to provide land in severalty to the extent of 160 acres to each Indian, the land to be conveyed with a proviso as to non-alienation without the consent of the Governor General in Council of Canada, the selection of such reserves, and lands in severalty, to be made in the manner following, namely, the Superintendent General of Indian Affairs shall depute and send a suitable person to determine and set apart such reserves and lands, after consulting with the Indians concerned as to the locality which may be found suitable and open for selection.

...

FURTHER, Her Majesty agrees to supply each Chief of a Band that selects a reserve, for the use of that Band, ten axes, five hand-saws, five augers, one grindstone, and the necessary files and whetstones.

FURTHER, Her Majesty agrees that each Band that elects to take a reserve and cultivate the soil, shall, as soon as convenient after such reserve is set aside and settled upon, and the Band has signified its choice and is prepared to break up the soil, receive two hoes, one spade, one scythe and two hay forks for every family so settled, and for every three families one plough and one harrow, and to the Chief, for the use of his Band, two horses or a yoke of oxen, and for each Band potatoes, barley, oats and wheat (if such seed be suited to the locality of the reserve), to plant the land actually broken up, and provisions for one month in the spring for several years while planting such seeds; and to every family one cow, and every Chief one bull, and one mowing-machine and one reaper for the use of his Band when it is ready for them; for such families as prefer to raise stock instead of cultivating the soil, every family of five persons, two cows, and every Chief two bulls and two mowing-machines when ready for their use, and a like proportion for smaller or larger families. The aforesaid articles, machines and cattle to be given one for all for the encouragement of agriculture and stock raising; and for such Bands as prefer to continue hunting and fishing, as much ammunition and twine for making nets annually as will amount in value to one dollar per head of the families so engaged in hunting and fishing."
